

2016 HAS Thanksgiving

During Thanksgiving potluck, each student and teacher would bring a dish to share with the others, and parents are invited also. Each person would get a chance to take the foods he/she wants, and after that, everyone would enjoy the delicious meal together! On this important day, we not only eat foods, but also play sports such as football, ping-pong, or running. It's one of the happiest school days in HAS!

Students line up and take the foods they want, they eat foods with their friends.

After lunch, students could choose either to go out and play sports or to stay in the classroom and play table games.
